Camp Math!
It all adds up to fun!
### Overview:
NUI Galway presents **Camp Math** 2012. This is a three day camp in which students participate in activities and discover how maths can be related to their everyday lives!

Based on the new Project Maths course, students will learn how to use basic mathematical concepts and apply them to real-life situations.

### Who’s it for?
This camp is for students in their first year of secondary school. We welcome students of all ability levels as this camp will focus on different aspects of maths than those you will find at school.

As we are offering places on a first come – first served basis please apply ASAP to ensure that you have a place.

### Aims of Camp Math:
- To reinforce the first year Mathematics curriculum.
- To help bridge the gap between first and second year Mathematics.
- To show links between maths learned at school and “real world” problems.
- To encourage group work.
- To create a relaxed and encouraging attitude towards mathematics.
- Develop social skills.

### What to bring?
- Packed lunch
- Jackets

### What is provided?
- Pens/Pencils
- Notebook
- A few surprises
